

Things to remember:

What should I bring?

- Name of Early Intervention coordinator, if you have one.
- Baby bottle and formula brand that you use, if bottle feeding.
- Any questions that you have.
- Other family members are welcome.

When do I make another appointment?

- If you need another appointment, we will schedule it before you leave.

Will my baby keep seeing their regular pediatrician?

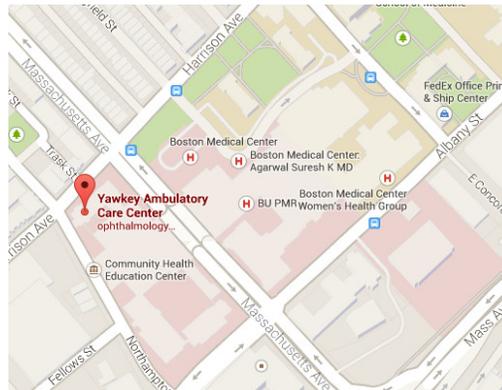

- Yes, Baby Steps will NOT take the place of your baby's regular doctor.

Boston, MA 02118

WHO gets referred to Baby Steps?

All babies who have risk when they are born (like prematurity).

WHAT is Baby Steps?

- Baby Steps is a program for high-risk babies.
- Baby Steps will NOT take the place of your baby's regular doctor.
- Your baby will have at least 1 appointment, which will include:
 - A visit with a doctor and other specialists.
 - Referrals to helpful outreach services (food stamps, WIC, Early Intervention, and housing)
 - Baby Steps will send a report to your baby's doctor.

HOW can Baby Steps help your baby?

Pediatrician:

- Check your baby's growth.
- Monitor any medications your baby is taking.

Sue Minear, MD

Dietitians:

- Make sure your baby is feeding well and meeting his/her Nutritional needs.

Celina Chan,
RD, LDN

Katherine
Truscott, RD

Occupational Therapists:

- Make sure your baby is learning how to use his/her body, arms and legs.

Lori Kyser,
M.OTR/L

Lynda Caggiano,
OTR/L

Family Advocate:

- Help with referral to outreach services for your baby and family (food stamps, WIC, Early Intervention, and housing)

Adrienne Nunley-Stephens
